The Wadesboro Ansonian says that right when folks down there expected to hear that John T. Patrick had not finished picking up his belongings that were washed away at Chimney Rock, the Colonel has turned up in Cincinnati and gets a two column write up in the "Billboard" about a show that he has contrived for touring the north. He walked to Hendersonville from Chimney Rock, reported the number of deaths from the flood, evidently, and let it go at that.

There is no business that has been more greatly enlarged in its scope and in the number of people that are served in the last few years than that of banking. As the business is required to be kept right up to the dot every day, it would be almost impossible to do it by the old slow methods of other days. The invention of the counting machine was a godsend to bank workers, but the inventors have not stopped there. They are making all kinds of automatic machines to save labor and guarantee accuracy. The Bank of Union has just installed the most modern of these. It is a machine which automatically balances every checking account in the bank every day. The page of every account is taken from the loose leaf ledger each day at the close of business and run through the machine. It reports the checks and the deposits and the date and balance and makes a duplicate for a monthly file. Thus a customer's account is always balanced and never has to be figured up, and at the end of the month his statement is ready to be mailed.

First Hospital Subscription.

The first contribution towards the equipping of the Ellen Fitzgerald hospital was received this morning by Mr. D. A. Houston, Secretary and Treasurer of the Board, from Messrs. R. A. Morrow and T. P. Dillon. The check was for \$118.30. This sum represents a surplus from the old Monroe hospital, which went out of business about ten years ago. Messrs. Dillon and Morrow wound up the affairs of the old hospital, and had the above sum left over, which has been to their credit in the First National Bank for some years.

Thus the hospital fund stands to date:

R. A. Morrow and T. P. Dillon, \$118.30.

The Journal will be glad to receive and acknowledge subscriptions to this most worthy enterprise, and they will be promptly turned over to Mr. Houston.

A Reason Why We Need It.

The daily need of a Chamber of Commerce in Monroe was emphasized yesterday morning, when the following telegram was received:

9 a. m.

"Secretary Chamber of Commerce, Monroe, N. C."

"Kindly mail to data relating to the advantages of your city as a manufacturing and distributing point. Emboldy statistics as to population, banking reserves, manufacturing enterprises, established and proportionate growth of each for reasonable period. Prompt handling will be greatly appreciated."

Owing to the fact that the telegram was confidential, the names of the various parties enumerated are left blank.

Although organized, the Monroe Chamber of Commerce does not yet possess a secretary. Undaunted, however, the directors took haste to give the inquirer prompt information by dispatching Mr. W. B. Love to see him. Mr. Love is one of the Directors, and of course was aware of the telegram, and volunteered his services for the present as Secretary. Meanwhile, the Directors are looking around for a permanent secretary. Several applications will be personally investigated by one of the directors in the next few days. "Slow but sure," is the motto the Directors have adopted in selecting a Secretary.

It is hoped there will be a large attendance, especially of the young women of the congregation.—Reporter.
